FOR IMMEDIATE RELEASE

## **Announcement of new partnership with eKYROS**

### **Donor Management**

Mount Vernon, Ohio (June 12, 2018) – Stewardship Technology and eKYROS have signed a partnership agreement to provide eKYROS customers access to Stewardship Technology’s Electronic Giving Solutions (**EGS**) platform. eKYROS has developed a new Online Giving Connector that supports seamlessly downloading transactions from Stewardship Technology’s Electronic Giving Solutions (**EGS**) platform.

The integration of Stewardship Technology’s and eKYROS’s platforms, provides eKYROS customers access to an all-in-one donation management platform. Stewardship Technology is a leader in the donation management industry, providing customized giving forms, multiple payment options, event registration, text-to-give, peer-to-peer fundraising, crowdfunding, customized reporting, and data analytics that is integrated with social media.

Stewardship Technology’s Director of Sales, Trey Swallow, states “eKYROS is a strategic partner for our continued growth in the nonprofit market. We are proud to partner with the number one pregnancy management software solution serving the Pro-Life Ministry.”

Stewardship Technology’s API’s makes it simple for any software provider to integrate with our Electronic Giving platform and start processing transactions through our Payment Facilitator model. Stewardship Technology’s partnership focus reflects our desire to collaborate with companies that share a similar vision of servicing clients through the highest level of customer support and innovative technology.

### **About Stewardship Technology**

Since 2002, Stewardship Technology has been empowering Nonprofits, Faith-based organizations, and Educational institutions through our cloud-based platforms making online giving and payment processing fast, secure, and efficient.

Stewardship Technology’s fully-integrated cloud-based platforms reduce manual processing, streamline and enhance the donor experience, and provide the highest level of security through our PCI-DSS Level 1 compliance.

Stewardship Technology is a community of people who care. Through **our** mission, we strive to make a difference for our clients by providing custom technology solutions that fund and fulfill **their** missions.
